Guatemalan Choirbooks

- 6 manuscripts copied between XVII - XVIII
- **Choirbook** format
- Written in **mensural notation**
 - Music notation system used in Europe throughout the Late Middle Ages and the Renaissance

An open manuscript showing four staves of mensural notation for a choir piece. The music is written in mensural notation on four-line staves. The text is Latin: "S fan na in ex cel fis, oisan na in ex cel fis, oisan na in ex cel fis, oisan na in ex cel fis, oisan na in ex cel fis, oisan na in ex cel fis, oisan na in ex cel fis, oisan na in ex cel fis." The manuscript is divided into four quadrants by colored borders: a blue border for the top-left quadrant (labeled **SUPERIUS** in a blue box), a green border for the top-right quadrant (labeled **ALTUS** in a green box), a red border for the bottom-left quadrant (labeled **TENOR** in a red box), and a yellow border for the bottom-right quadrant (labeled **BASSUS** in a yellow box). The manuscript is numbered 127 in the top right corner.

Barriers for Accessing the Music

- Lack of high-quality digital images
- Notation style (mensural notation)
- Layout (choirbook format)

Superius
Os - san - na - in - ex - cel - sis

Altus
Os - san - na - in - ex - cel - sis

Tenor
Os - san - na - in - ex - cel - sis

Bassus
Os - san - na - in - ex - cel - sis - Os - san - na - in - ex - cel - sis

Process for Encoding the Music Content of the Choirbooks

Three stages:

1. Digitization

2. OMR

- Optical **M**usic Recognition (OMR) \approx Optical **C**haracter Recognition (OCR)

3. Tool designed for the music notation of these choirbooks

DIY Book Scanner

- V-shaped book cradle
 - Built
- Camera(s)
 - Borrowed from the McGill Music Library
 - Nikon D750 (24 Megapixels)
 - Images obtained have a 300 dpi resolution
- Lighting
 - Borrowed from DDMAL Lab, McGill University
 - Two natural-light LED panels

Scoring-up Tool

1. Duration based on context
2. Merge all files together

Output File

SCORE

Expected Results

- Digitization and encoding of the repertoire as musical scores in a machine-readable file format
- Facilitate its preservation, dissemination, study by musicologists, and appreciation by the general public
- We expect this research to be used as a model for the digitization of the mensural repertoire of other countries that were once part of the colonial past

Thank you!
